

MODULE 2

Learning Outcomes

By the end of Module 2, you will be able to:

- Compare and contrast the experience of designing for in-person and online courses
- Describe principles of design in the context of course planning
- Describe common “problems of practice” in both online and in-person classes

Compare online & in-person, discuss problems of practice and principles of course design

Set up LMS course space, create a discussion forum, begin your syllabus

Explore discussion forums and how they work at your institution

Foundational Concepts

In this module, we will introduce problems of practice and the principles of effective course design that direct the rest of this course. In addition, we will guide you in the creation of practical containers for the course assets that you will create in this course so you are ready to jump in as we move forward in the training.
