

# MODULE 4

## Learning Outcomes

By the end of Module 4, you will be able to:

- Define synchronous and asynchronous modes of instruction
- Contrast synchronous and asynchronous modes of instruction
- Compose a synchronicity plan

**TEACH**

Learn about instructional “modes” and synchronicity in course delivery

**CREATE**

Create your course synchronicity plan

**DISCOVER**

Participate in a Moodle Discussion Forum and live office hours in Zoom

## Creating a Synchronicity Plan

One of the major decisions you will need to make when you move online is where and when instruction will be delivered. This module helps you to compare and contrast asynchronous and synchronous options. At the completion of this module, you will be able to determine which approaches are best for your course and students.
