

# MODULE 5

## Learning Outcomes

By the end of Module 5 you will be able to:

- Identify appropriate assessments for different levels of Bloom's
- Describe several alternatives to in-class quizzes, tests, and practical assessments
- Identify grading tools to enable online evaluation
- Select appropriate technology to deliver your assessment strategy online

**TEACH**

Learn about different types of assessments and ways to evaluate student work online

**CREATE**

Create your assessment strategies and develop one assessment for your course

**DISCOVER**

Discover LMS rubric tools, quizzes, interactive video, and knowledge checks

## Assessment Strategies

In Module 5, you'll take the next step in backward course design and learn how to create an online assessment strategy aligned with your course learning outcomes. You'll ensure your assessments actually assess what you want them to, and, more importantly for a move to online, you'll leverage available technologies to accomplish this effectively.
