

MODULE 7

Learning Outcomes

By the end of Module 7, you will be able to:

- Identify and implement pedagogical approaches that are suited to online teaching
- Align learning outcomes with specific technologies available to facilitate student engagement in an online course

TEACH

Learn how to build online relationships with and between students and how to create an inclusive course environment

CREATE

Write netiquette language for your syllabus, create an engagement activity and discussion guidelines

DISCOVER

Discover narrated presentations and tools to enhance student engagement, such as FlipGrid and Hypothes.is

Student Interactions

In Module 7, you'll take a look at the many strategies and tools available to help you build online relationships with your students, and discover how you can effectively “read the room” when you're online.
